This indicator reports the percentage of female Medicare beneficiaries age 35 and older who had a mammogram in most recent reporting year. The American Cancer Society recommends that women age 45 to 54 should get a mammogram every year, and women age 55 and older should get a mammogram every other year. In the latest reporting period there were 7,219 Medicare beneficiaries in the report area, and 30% of female beneficiaries age 35 or older had a mammogram in the past year. The rate in the report area was lower than the state rate of 30% during the same time period.
